

Through God's grace, a community growing in knowledge and understanding

SEND Information Report

All Cambridgeshire Local Authority(LA) maintained schools have a similar approach to meeting the needs of pupils with Special Educational Needs and are supported by the LA to ensure that all pupils, regardless of their specific needs, make the best possible progress in school.

All schools are as inclusive as possible, with the needs of pupils with Special Educational Needs and Disabilities being met in a mainstream setting wherever possible.

What is the Local Offer?

The *Children and Families Bill*, 2014 requires the LA and schools to publish and keep under review information about services they expect to be available for the children and young people with Special Educational Needs (SEN) aged 0-25. This is the 'Local Offer'.

The intention of the Local Offer is to improve choice and transparency for families. It will also be an important resource for parents in understanding the range of services and provision in the local area. The Cambridgeshire Local Offer can be accessed at:

http://www.cambridgeshire.gov.uk/info/20136/special_educational_needs_and_disabilities

What is this SEND Information Report?

The SEND Information Report uses the LA Local Offer to meet the needs of pupils with SEND as determined by school policy and the provision that the school is able to meet. (For our Inclusion Policy, see the School website or ask at our office reception.)

What kinds of special educational needs might the children at St Laurence Catholic Primary have?

At St Laurence we understand that the educational needs of every child are different and we have a graduated approach to SEND, ensuring early identification of needs and a continuum of support for children in order to enable them to make progress.

The four broad areas of need are

- **Communication and Interaction**
- **Cognition and Learning**
- **Social, Emotional and Mental Health Difficulties, and**
- **Sensory and Physical Needs**

Communication and interaction

Children and young people with speech, language and communication needs (SLCN) have difficulty in communicating with others. This may be because they have difficulty saying what they want to, understanding what is being said to them or they do not understand or use social rules of communication. The profile for every child with SLCN is different and their needs may change over time. They may have difficulty with one, some or all of the different aspects of speech, language or social communication at different times of their lives.

Children and young people with an Autism Spectrum Disorder, including Asperger's Syndrome and Autism, are likely to have particular difficulties with social interaction. They may also experience difficulties with language, communication, social interaction and imagination, which can impact on how they relate to others.

Cognition and learning

Support for learning difficulties may be required when children and young people learn at a slower pace than their peers, even with appropriate differentiation.

Specific learning difficulties (SpLD), affect one or more specific aspects of learning. This encompasses a range of conditions such as dyslexia which is a general term for disorders that involve difficulty in learning to read or interpret words, letters, and other symbols and dyscalculia which is a condition that affects the ability to acquire arithmetical skills.

Social, emotional and mental health difficulties

Children and young people may experience a wide range of social and emotional difficulties which manifest themselves in many ways. These may include becoming withdrawn or isolated, as well as displaying challenging, disruptive or disturbing behaviour. Other children and young people may have disorders such as attention deficit disorder, attention deficit hyperactive disorder, anxiety or attachment disorder.

Sensory and/or physical needs

Some children and young people require special educational provision because they have a disability which prevents or hinders them from making use of the educational facilities generally provided. These difficulties can be age related and may fluctuate over time. Many children and young people with vision impairment (VI), hearing impairment (HI) or a multi-sensory impairment (MSI) will require specialist support and/or equipment to access their learning.

Some children and young people with a physical disability (PD) require additional ongoing support and equipment to access all the opportunities available to their peers. Children may also experience difficulties associated with conditions such as dyspraxia or cerebral palsy.

If a pupil has a medical need then an appropriate care plan will be compiled with support from the school nurse in consultation with parents/carers. These are discussed with all staff who are involved with the pupil. When necessary, staff will receive specific training to meet children's individual needs e.g. epipen training which is delivered by the school nurse. Where necessary and in agreement with parents/carers medicines are administered in school but only where a medicine has been prescribed by a doctor and a signed medicine consent form is in place to ensure the safety of both child and staff member. The majority of staff have basic first aid training and there are several designated first aiders.

Who are the best people to talk to in this school about your child's difficulties with learning/ special educational need or disability (SEND)?

The Class Teacher

Responsible for:

- Checking on the progress of your child and identifying, planning and delivering any additional help your child may need (this could be targeted work or additional support) and letting the Inclusion Manager know as necessary.
- Writing Pupil Progress targets, and sharing and reviewing these with parents at least twice a year.
- Personalised teaching and learning for your child as identified on the school's provision map.
- Ensuring that the school's Inclusion Policy is followed in their classroom for all pupils with SEND.
- Overseeing support that TAs provide for your child
- Ensuring that you, as parents, are involved in supporting your child's learning.

The Inclusion Manager: Mrs Jenny Robertson

Our inclusion manager is an experienced teacher who has completed additional training in special educational needs and has worked as SENCo (Special Educational Needs Coordinator)/Inclusion Manager since 2008.

Responsible for:

- Co-ordinating all the support for children with special educational needs or disabilities (SEND).
- Providing specialist support for teachers and support staff in the school, so that they can help children with SEND to achieve the best progress possible.

- Liaising with all the other people who may be coming in to school to help support your child's learning, e.g. Speech and Language Therapy, Educational Psychology, Specialist Teaching Team.
- Ensuring that you are involved in supporting your child's learning, kept informed about the support your child is getting and involved in reviewing your child's progress.
- Updating the school's SEND register (a system for ensuring that all the SEND needs of pupils in this school are known to staff) and making sure that records of your child's progress and needs are kept.
- Keeping the school provision maps up to date.
- Developing and reviewing the school's Inclusion policy.
- Monitoring the success of additional provision by pre and post intervention testing.
- When necessary, with your permission, accessing further support through the Common Assessment Framework (CAF) process.

The Head Teacher

Responsible for:

- The day-to-day management of all aspects of the school; this includes the support for children with SEND.
- Delegating responsibility to the Inclusion Manager and class teachers, but is still responsible for ensuring that your child's needs are met.
- Ensuring that the Governing Body is kept up to date about issues relating to SEND.
- The deployment of resources for Special Educational Needs and Disabilities, in consultation with the school governors on the basis of needs in the school.

The SEN Governor: Mrs Janet Scally

Responsible for:

- In consultation with the full governing body, making sure that the necessary support is given for all children with SEND who attend the school.
- The review of the Inclusion policy.

How are children with Special Educational Needs identified and assessed?

At St Laurence children are identified as having SEND through a variety of ways including the following:

- Liaison with the previous educational setting or other external agencies.
- Tracking information – monitoring each child's progress according to age expected levels.
- School based assessments carried out initially by the class teacher.
- Further school based assessments carried out by the Inclusion Manager where concerns are raised.
- Progress of all children is reviewed formally with members of the Senior Leadership Team every half term in reading, writing and numeracy, through pupil progress meetings.
- Concerns raised by parents, school staff or the pupils themselves.
- Health diagnosis.

What are the different types of support available for children with SEND in our school?

Details of our current Strategies and Interventions are attached, see appendix 1.

Class teacher input, through targeted classroom teaching (Quality First Teaching).

For your child this means:

- That the teacher has the highest possible expectations for your child and all pupils in their class.
- That all teaching builds on what your child already knows, can do and can understand.
- That different ways of teaching are in place, so that your child is fully involved in learning in class. This may involve things like using more practical learning.
- That specific strategies, which may be suggested by the Inclusion Manager or an outside agency, are in place to support your child to learn.
- The teacher carefully checks your child's progress and decides that, if your child has a gap or gaps in understanding/learning, additional support may be needed for him/her to make the best possible progress.

Specific group work

- For our interventions we use one-to-one teacher or teaching assistant (TA) support and/or group support with teachers or TAs who have undertaken additional training.

Specialist groups run by outside agencies

This means a pupil has been identified by the Inclusion Manager/class teacher as needing some extra specialist support in school from a professional outside the school. This may be from:

Local Authority Provision delivered in school

Specialist Teaching Team
Educational Psychology Service
Sensory Service for children with visual or hearing needs
Parent Partnership Service
Speech and Language Therapy Service (SALT)

Health Provision delivered in school

School Nurse
Occupational Therapy
Physiotherapy
Child Adolescent Mental Health Service (CAMH)
Paediatrician

Specified Individual support

All children identified to have additional SEND are known to the Inclusion Manager and this information kept up to date on an SEND register, all of these children have a SEND Pupil Profile completed in the Autumn Term by the class teacher and reviewed in the Summer Term with the Inclusion Manager in preparation for transition. These Pupil Profiles are shared with the children (as age appropriate), parents and all staff working with the child.

Some of the children on the SEND register are identified to have a higher level of additional need, often specialists or other agencies are working with the school to support these children's needs, and as well as a Pupil Profile, they will have a School Additional Support Plan (ASP) drawn up by the class teacher with support of the Inclusion Manager and reviewed Termly in liaison with parents.

Children with the most complex and severe special needs may require an Education, Health and Care Plan (EHCP), previously known as a Statement of SEN. This means your child will have been identified by professionals as needing a significantly high level of individual or small-group teaching, in excess of what the school can provide for from the delegated SEND budget, and following a full assessment by the Statutory Assessment Team at County an EHC Plan has been drawn up and agreed.

How can you let the school know that you are concerned about your child's progress in school?

If you have concerns about your child's progress, you should speak to your child's class teacher initially. If you continue to be concerned that your child is not making progress, you may speak to the Inclusion Manager who can be contacted by email or phone or can arrange to meet with you by appointment. Following the Inclusion Manager our Headteacher is also available.

School telephone number: 01223 712227 School email address: office@stlaurence.cambs.sch.uk

How will the school let you know if they have concerns about your child's progress in school?

If after a period of close monitoring your child is identified as not making progress, the school will set up a meeting to discuss this with you in more detail.

How are staff in the school helped to work with children with SEND, and what training do members of staff have?

Class teachers and TAs receive a range of training as part of their ongoing Continuing Professional Development (CPD) in order to respond to the needs of the individual children they are working with. Some TAs are ELKLAN trained, which means that they can deliver specific speech and language related targets to children. Some members of staff have basic training in Autistic Spectrum Conditions or Specific Learning

Difficulties. Other training includes assessing reading and running records, social stories and social skills, supporting transition, Numicon, (a resource to help children learn numeracy in a practical way) and Makaton (a special sign language for children who find the acquisition of speech difficult). Some TAs are specifically trained to work with individuals who have a hearing impairment or visual impairment, and as such have received very specific training from specialist teachers and outside agencies. Some staff members are trained specifically in de-escalation strategies and positive handling techniques where appropriate.

How is St Laurence accessible to children with SEND?

- The school is fully compliant with the Equality Act requirements.
- The school is on one level with easy access and double doors where appropriate.
- There is a suitable toilet for the disabled and changing facilities.
- We ensure where ever possible that equipment used is accessible to all children regardless of their needs.
- After-school provision is accessible to all children, including those with SEND.
- Extra-curricular activities are accessible for children with SEND.
- Radio transmitters are worn when appropriate by adults working with children who have hearing impairments to ensure that they are fully included in the curriculum
- Quiet areas and calming zones are provided for children who need a space to support their emotional needs.

How will we support your child during transition from one learning environment to another?

We recognise that transitions can be difficult particularly for a child with SEND, and we take steps to ensure that any transition is as smooth as possible.

- The Inclusion Manager and Foundation Stage leader will visit pre-schools when appropriate and attend annual reviews for pre-school children.
- If your child would be helped by a book/passport to support him/her to understand moving on, then one will be made with information about the current placement and new school.
- Your child will be able to visit our school and stay for a 'play date'.
- Parents will be invited to attend an information evening.
- You may be given an opportunity for additional visits where appropriate to help to prepare your child for the change in education provision.
- We pass on all records about your child as soon as possible. A TA may accompany children on additional visits to new schools.
- Within school, information is transferred to the new class teacher and a planning meeting takes place before the end of each academic year, ready for new classes in September.
- Your child may participate in a transition group or be able to visit the new class more frequently where appropriate, to prepare for the move.

Complaints Procedure

The arrangement the governors have made for dealing with a complaint from parents of children with Special Education Needs is exactly the same as for any child within the school.

Where an issue arises, parents should, in the first instance, make an appointment to speak with their child's class teacher and seek to resolve any concerns. If a parent believes that their concern has not been resolved to their satisfaction or is of a more serious or sensitive nature, an appointment should be made to see the Headteacher, who will investigate and report back on the results of the investigation. Where an issue is not satisfactorily resolved, parents should then take up the matter with the Chair of Governors. A copy of the school's Complaints Procedure is available on the policies page of the school website or on request from the school.

Appendix One:

Interventions and additional strategies to support children with SEND at St Laurence

Communication and Interaction

Use of ELKLAN resources

Social stories

Additional language support for EAL learners particularly those who also present with SEND

Speech and Language work as recommended by the S&L therapist

Use of Makaton sign language

Talking Partners groups

Time to Talk groups

Cognition and Learning

Dyslexia friendly classroom practice

Additional guided reading sessions

Project X Code Reading Intervention

Expanded Rehearsal Technique 1:1 Reading y2-6

Booster groups in KS1 and KS2 for English and ks2 for Maths

1st Class Maths Interventions in ks1 and lower ks2

Success at Arithmetic in y5

Talking Maths Groups in ks1

Overcoming barriers Maths resources

Precision teaching

Use of Numicon (resources for helping children with numeracy in a practical way)

Additional Handwriting groups

Word shark ICT spelling programme

5 Minute box Intervention for English and Maths

Social, Emotional and Mental Health

Time to Talk groups

Peer buddying system

1:1 Art Therapy

Individual counselling and group nurture sessions developing social interaction

Romsey Mill Transition work

Rainbows bereavement and separation counselling

Quiet club, Gardening club and 'Walk and Talk' lunchtime club

Additional one to one lunchtime supervision

Sensory and/or physical

Sensory circuits before school

Use of equipment for Hearing support

'Secrets of words' Hearing Service Language Programme

Use of iPad for motor difficulties

Physiotherapy work as recommended by the Physiotherapist
